

## DAY 2

Tuesday, 2nd May

Today we had our first lesson at Torquay International School, where we were first put into three different groups. After that we went to the classrooms and our local teachers asked us some questions about ourselves. Then each group worked on their own material. After class we splitted into small groups and made our way to the big wheel. There was a little difficulty because we had to find the big wheel by ourselves. But, of course, we managed this without any complications (and with friendly help of Google Maps).

The Ferris Wheel

When we had found the big wheel we formed new small groups, with which had to answer questions on a worksheet. The whole thing was similar to a rallye and included a lot of fun... and walking. Finished with those tasks, we met at the Ferris Wheel again and there were told that we would have 1,5 hours of free time.

With one difficulty of course: we had to walk to the coach station half an hour away from us. Happy children... we found it – but again not without maps. At the end of the day we were thrown out of the bus while some of the others were allowed to stay in. We had to walk home, a fifteen minutes walk...

Now some of us staying near our language school have to walk to school every day. And that is exhausting, so we must sleep now.

Bye!

Lena, Laura and Charlotte
