

## DAY 3

### Our Trip to Brixham

The day started with English lessons in the TIS (Torquay International School) in which we were divided in three groups. For example we learned to order something more politely or played hangman. The lessons lasted three hours and we sometimes had a break. Then at 12.15 am we faced the **Big Challenge**. All in all, it went well and we were happy when we had completed it. Now we were excited because we were about to visit Brixham. Brixham is a small town with a harbour in which you can see many ships.

One of these ships is the Golden Hind. It is only a replica, of course. It was the ship of Sir Francis Drake, on which he raided and fought Spanish ships. It is very impressive and big.

Also there are some other important things which happened in Brixham. After a civil war which was caused and His new religion there were sometimes Protestant and sometimes Catholic Kings in England until Prince William of Orange came to Brixham and reinvented the Protestant faith in England.

Now, back to our trip. With the bus, we went to a coach station. From the station, we first visited the Golden Hind. After that, we walked along a pier to a light house and back again. Then we had free time of about an hour, before we had to meet at an obelisc. Most of us bought an ice cream and sat outside. Beware of the seagulls! After that we got back to the bus and went home.

This was our lovely trip to Brixham.
