

Day 11

Torquay Museum, Boat Trip

Today we visited Torquay Museum which is mainly about the history of Torquay and famous local people. A big part of the exhibition focuses on Agatha Christie. We learned about her life and her books. Another part is about the history of the region, historical objects, and nature. There is also a small kind of tunnel in the museum where we sat and played games for some time.

After that we travelled by boat from Torquay to Brixham. On our trip, we had a beautiful view on the coast and sea. When we arrived at Brixham, we stayed on the boat and went back.

The day was interesting and informative. We learned many new things about England and its culture.
