

Day 4

An afternoon with fish, chips and bowling

In the morning we were as usual at school. We played Kahoot and we did some exercises. Because the busdriver had a day off every one had to walk today.

After school we went to Babbacombe and bought the best fish and chips in the UK at „Hanburys Takeaway“. One of the seaguls attackted us, but we didn't want to share. Afterwards we went to Babbacombe Beach. The way there was very exciting because you needed to go straight down the steep hill. That was very exhausting. At the beach there were very huge waves but most students didn't care because they were busy throwing rocks into the water. The way up the hill was on a road and it was a bit boring because it was just a road. After that we took a double-decker to the bowling alley. Bowling is a lot of fun. Every group played two rounds. After that we had to go home. The way there was again so long. However, the day was amazing.
