

## Day 9

### Cockington

Today we went to Cockington for cream tea. After school we went into town, from where we went to Cockington through a beautiful forest path with lovely flowers and a small creek.

When we arrived we saw a beautiful mansion, where we had cream tea: yummy scones, clotted cream, jam and black tea. However, that wasn't all because we could also visit a little church where we could go inside. Moreover there was a small workshop not far away from the mansion where we could buy small glass objects. Behind the mansion there was a garden with small trees and cool flowers and in the garden we could relax in the sun.

All in all it was a beautiful and interesting trip.
